

GRADE CHECKER (Temporary – short term position)

\$20-\$35 per hour/no benefits

Sets grade stakes to guide earth moving equipment operators for various earth moving projects using measuring instruments and hand tools. Reads survey stakes to determine grade specification for embankments and project specifications. Measures horizontally and vertically in specified ratio, from survey stake to juncture of embankment and initial excavation, using survey rod and eye level, lasers and other systems. Sets grade stakes, using hatchet, and chalk-marks excavation reference points on stake. Repeats measuring and staking at specified intervals to form horizontal stake line along embankment. Observes excavating activities to verify conformance to stake references and notifies equipment operators or supervisor of deviations. Interprets plans and specifications to establish references for earth moving activities and sets grade stakes for various projects.

Minimum Qualifications

- Education: Equivalent to completion of twelfth grade, **and**
- Experience: Ten years of experience as a grade checker. Demonstrated experience with the construction of roads, debris basins, water detention facilities, lakes, dams, and other impoundments.

Knowledge, Skills & Abilities

Journey-level knowledge and skill in the operation and maintenance of a broad variety of survey equipment used for establishing grades. Ability to work in all-weather conditions in and around heavy equipment; set grade stakes, survey markers, and interpret blue prints; establish and maintain positive and cooperative working relationships with those contacted in the course of work at all levels.

Submit a District application along with specific job experience, equipment operated, and a narrative of your detailed responsibilities for each specific project to:
